

MONILE®

*Flooring especially designed for the food processing industry.
Remains non-slip when wet.*

MONILE®

Designed for food processing industries, particularly those whose floor is continuously wet.

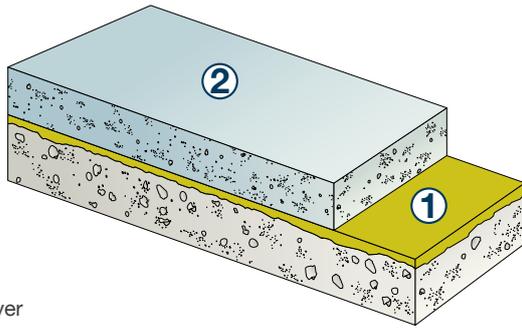

- Since 1959, several million m² of Monile have been applied in Europe, Africa, Asia, the Middle East and the USA.
- Application references covering several decades.
- A unique composition made from an acrylic copolymer dispersion, a modified and pigmented hydraulic binder and specifically graded quartz grains.
- Professional knowledge and skills of application personnel, who have worked with RPM Belgium NV for over 30 years.
- International tests and certification: CSTB, EN 13813, EN 1504-2, CNAMTS, CE mark, US Navy, USDA, CEBTP, ..

ADVANTAGES

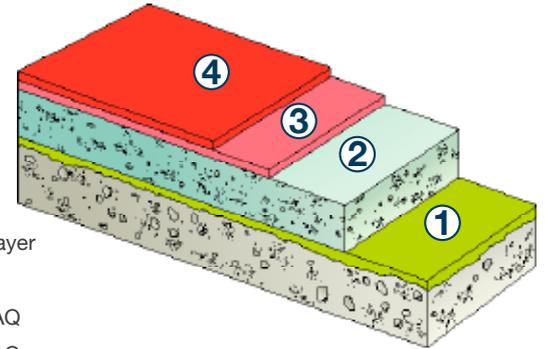

- Absence of toxicity make it the ideal choice for a large number of industries
- Exhibits an extremely high slip resistance in wet areas and areas soaked with blood, oil and grease.
- Blood, urine, oil and grease do not affect Monile
- Monile meets hygiene and safety standards applicable to the food processing industry
- Angles are shaped with a curved trowel for ease of cleaning
- Monile is resistant to bases currently used in the food industry
- Excellent mechanical resistance (hardness, shock, abrasion) ideally suited to the mechanical industry
- Easy to clean, using alkaline detergents together with steam or high pressure water
- Compressive strength > 50N/mm²
- Ideal for restoring old concrete
- Can be applied to damp substrates
- Very easy maintenance and repair
- **Solvent free**
- **Non-flammable**
- **Long-lasting and high durability**
- **Easy to repair**

SYSTEM FOR WET AREAS

1. Adhesion layer
2. Monile

SYSTEM FOR DRY AREAS

1. Adhesion layer
2. Monile
3. Monepox AQ
4. Monepox AQ

MONILE PROVIDES STRONG AND LASTING PROTECTION FOR YOUR INDUSTRIAL FLOORING!

RECOMMENDED APPLICATIONS

FOOD PROCESSING

- Slaughterhouses
- Meat product processing industries
- Storage and transport of seafood products
- Breweries
- Beverage industry*
- Fruit and vegetable industry

MECHANICAL INDUSTRIES

- Production halls
- Assembly lines
- Warehouses
- Automotive industry
- Heavy industry
- Garages

**According to the type of beverage, it is recommended that you contact our technical service for confirmation.*
